Renovated Home: Modern Luxury and Lasting Value

Transformed Inside and Outside—Better Than New

This remarkable home may have been originally built in 1964, but step inside and you'll discover a modern masterpiece with nearly every feature updated and redesigned. In 2010, the entire interior was stripped to the studs and meticulously renovated, resulting in a residence that could easily be considered a 2010 build. Since then, numerous further upgrades and thoughtful additions have elevated the property, making it an exceptional opportunity for today's discerning buyer.

Comprehensive Renovations & Upgrades

• 2010: Major reconstruction—walls removed for open concept living, all new dual pane windows, interior and exterior doors, kitchen cabinetry, countertops, hardwood and ceramic tile flooring, carpet downstairs, light fixtures, drywall, and paint throughout.

• Upgraded high-efficiency furnace, new electrical and plumbing, bathtubs, toilets, and spray foam insulation in exterior walls.

• Soundproofed interior walls for ultimate privacy.

• 2016: Greenhouse addition, new perimeter fencing, and fruit tree/shrub landscaping.

• 2019: Fully renovated upstairs bathroom with subway tile shower, custom cedar finishes, and bidet installation.

• 2023: Spacious new covered deck perfect

for outdoor entertaining, overhead power lines relocated underground, new eavestroughs and soffits.

â€¢ 2024: Newly heightened and widened garage with spray foam insulation and concrete floor, upgraded driveway (extra thick slab for RVs), new retaining wall, custom aluminum man-gate, low-maintenance front yard landscaping, new tub surround in basement bathroom, and full basement repainted.
